When you purchase a Valor fire you do so with the utmost confidence that it will serve you for many years to come. Such is the confidence in our products, that we are able to offer an exclusive **THREE-YEAR GUARANTEE** when your fire is purchased from one of our network of Valor Centres – providing the fire is serviced annually in accordance with Valor guidelines. This gives you an additional two year's peace of mind over and above our standard guarantee, so you can relax in the knowledge that your fire has been recommended, supplied and installed by professionals to the highest standards.

## Be Inspired With Valor

Discover 'Inspire', a stunning collection of landscape gas fires from Valor and bring a sense of style, quality and prestige to your living space.

Combining design inspiration with innovative performance features and easy servicing, Inspire delivers the perfect package for your home.

---

### At the heart of your home

For centuries, a focal point fire has been at the heart of the British home, and nothing can beat the warmth, realism and control of a gas fire. The Inspire collection from Valor lets you bring the unbeatable ambience of a gas fire into your home, with a far greater range of output control than ever before thanks to Valor's unique duplex burner, Duo, which is available on the 600, 800 & 1000 models.

The Duo burner can be reduced down to 34% of output when the full flame is not required, typically a conventional (single) burner can be turned down to 60% of output – giving complete control even when the full flame is not required.

The 500 model is fitted with a Simplex burner, which offers a realistic flame picture and glow. The Inspire 400 model introduces a unique campfire log bed and Luminaire under-bed LED lighting module, creating a warming glow that can be enjoyed with or without heat for year-round ambience.

### Design versatility

You can choose from a long list of design options, with 500, 600, 800 and 1000 models each available with a choice of liners, log, and trim effect. Pick from two fuel beds, five ceramic back liners and choice of glass, two trim designs, each in a choice of four colours.

The 500, 600 and 800 models also come with a choice of two suites for each model. Inspire gas fires from Valor can even be purchased with a frameless kit which requires no trim.

The 400 is the first inset model in the Inspire range, offering a choice of three back liners, two trims each available in three-sided or four-sided designs, as well as a choice of three luxurious suites.

### State-of-the-art controls

For the ultimate in convenience, all fires in the Inspire collection also come with Valor's unique Fireslide control, a first of its kind for premium gas fires, which lets you easily adjust the flame output with a simple slide control.

The 500, 600, 800 and 1000 models also support the option for an advanced remote control, offering a host of features from the comfort of the armchair including on/off, output control and operation modes including thermostatic, eco and programme modes.

Choose from a wide range of design choices, each delivering quality, versatility and all the atmosphere of a standout feature fire in your living room.

All this from a brand you can trust, with a proud heritage and more than 60 years of experience manufacturing gas fires for the home.

### Flexible installation

The Inspire 500, 600, 800 and 1000 can be wall-mounted with a frameless kit or choice of trim, whilst the 400 model provides an inset option with a unique campfire fuel bed and choice of trims. All Inspire fires can also be incorporated into a choice of surround suites, each made from natural Portuguese limestone, to create a stunning focal point in the home. The fires are glass fronted and the 500, 600, 800 and 1000 models offer a choice of fuel bed and ceramic back liner, giving you exactly the design you want to suit your living room. For added flexibility of installation, a gather hood connector kit, designed exclusively for the Inspire collection, allows the fire to connect to a flexible flue system.

Even servicing is made easy, thanks to the way in which the entire burner assembly slides out.

### Highest standards guaranteed

All Valor fires are designed, manufactured and tested to the highest standards, to ensure the quality and safety of the products we sell. As part of the multi-national Glen Dimplex Heating & Ventilation division, our products are developed in state-of-the-art research and design facilities, incorporating the very latest in home heating technologies.

As a result, you can have confidence that you are buying from a leading brand that you can trust – backed by more than 60 years of proud history.

### Ask the experts

We take great care to ensure our products are designed and manufactured to the highest standards and we want our fires to be sold and installed in the same way to provide the best possible experience for customers.

The Valor Inspire collection is available exclusively from the Valor Centre network, which includes experienced fire and fireplace retailers nationwide. Each retailer has been carefully selected to ensure they can provide you with expert knowledge, advice and assistance on all aspects of the fire, including installation, to make sure you choose the right solution for your home. Valor Centre retailers can also offer an exclusive three-year guarantee on Valor products – not available from any other retailer.

Visit [www.valorinspire.co.uk](http://www.valorinspire.co.uk) to find your nearest Valor Centre showroom, where you can see our fires in action and discuss your individual requirements.

# Chimney Options

Look at the pictures and decide which one best matches the chimney at your home. Please note that the Inspire Collection is only suitable for Brick Chimneys (BC).

**Brick Chimney (BC)**  
The classic brick built chimney is suitable for all gas fires.

**Pre-fabricated Flue (PF)**  
Pre-fabricated chimneys are suitable for most gas fires dependent on flue depth and diameter.

**Pre-cast Flue (PCF)**  
Pre-cast flues are found in most modern homes and are suitable for slimline gas fires.

**No Chimney (NC)**  
No chimney or flue? Balanced flue gas fires are suitable in this case.

## Fireplace Openings

**Note:** Please consult the installation instructions before commencing any building work.

## Glass Options

Standard

Non-reflective

Choose from standard or non-reflective glass. Non-reflective glass offers crystal clear transparency. It reduces reflections to just a fraction of those seen with conventional glass.

## Surrounds Care

The surrounds featured in this brochure are made from beautiful materials naturally formed over millions of years, they have very individual features and characteristics encapsulated within them. From inside the raging furnaces of a cooling world there are the close up flowing swirls and veins of the molten rocks and from the crashing shores of oceans long ago, there are the shells and fossils nestled among the silt and shingle of ebbing tides.

Your fireplace should be protected from staining. In the event of an accident soak up any spillage immediately. Where staining has occurred, use a specialist stone cleaning and resealing kit, following the instructions given by Valor. Before cleaning, turn off the fire and allow to cool beforehand. Dust down regularly with a soft clean brush and occasionally wipe over with a damp cloth.

Inspire 400 Atalanta Suite

*Note: The Inspire 400 gas fire can only be hearth mounted with the Atalanta suite*

Inspire 400/500 Palermo Suite

*Note: When fitting an Inspire 400 model with the Palermo suite the fireplace opening dimensions are: H: 555 W:400*

Inspire 400/500 Vicenza Suite

*Note: When fitting an Inspire 400 model with the Vicenza suite the fireplace opening dimensions are: H: 555 W:400*

# Burner Settings

## Campfire Burner (400 model)

The Inspire 400 model is fitted with advanced burner technology, which provides an unbeatable 'camp-fire'-esque flame picture and glow.

The Inspire 400 model features Luminaire, a unique under-bed LED lighting module, creating a warming glow that can be enjoyed with or without heat.

Setting 1 – Low

Setting 2 – Medium

Setting 3 – High

Luminaire - under-bed lighting

## Simplex Burner (500 models only)

The Inspire 500 models are fitted with a Simplex burner, which offers a realistic flame picture and glow.

Setting 1 – Low

Setting 2 – Medium

Setting 3 – High

## Duo burner (600, 800 & 1000 models only)

The Inspire 'Duo' burner is divided into three sections which allows the front burner to be lit on low (setting 1) or on medium (setting 2) and also enables both burners to be on full (setting 3).

Setting 1 – Low

Setting 2 – Medium

Setting 3 – High

# State of the Art Controls

---

## Remote Control

The remote control for the Inspire Collection is a premium control offering a host of features from the comfort of the armchair including on/off, flame settings & output control and a host of operation modes including thermostatic, eco and programme modes. It also offers a child proof mode for extra piece of mind.

## Fireslide Control

For the ultimate in convenience, all fires in the Inspire collection also come with Valor's unique Fireslide control, a first of its kind for premium gas fires, which lets you easily adjust the flame output with a simple slide control.

**HIGH**  
EFFICIENCY

## High Efficiency

Valor's dedicated research and development facility combines the latest technology with innovative techniques to ensure our products offer the highest possible efficiency. This not only helps consumers meet energy targets, but also keeps running costs to a minimum.

## High Efficiency - Gas

Gas fires are a great way to reduce the overall fuel usage in the home. They offer an effective way of heating the space you are living in which allows the central heating to be turned down or even off. Gas fires deliver heat in two modes, radiant and convection. They do not need electricity so you have a secure option for heat in power outages or boiler breakdowns.
