

FINDLEY HOUSE
FIREPLACES

With over 20 years of designing and manufacturing fireplaces Findley House has become one of the most established and accomplished British manufacturers in our field.

With such diversity both in design and materials we have brought something breathtakingly unique to the high street.

Findley House fireplaces are hand crafted in Yorkshire where we are enthusiastic about retaining traditional craftsmanship techniques and feel it is important to nurture these skills.

We are renowned for our excellent quality, service and award winning design.

We have included a selection of our most recent designs inside this brochure, for further inspiration and to view materials please visit our website.

A fireplace should be the focal point in any room and being a bespoke manufacturer enables us to fulfil your requirements without restriction. Let us help make your home complete with a Findley House Fireplace.

Findley House will endeavour to meet all measurements as stated, however; due to the nature of the manufacturing process, a tolerance of up to 10mm will be considered acceptable. Findley House reserve the right to change sizes and design without prior notification.

- Other material, hearth & edge options are available. Please contact the office for further details
- Please note that all samples are to be used as a guide, as colour, natural fossils, fissures, markings and shade variations will occur and will not be considered a fault.
- All suites & mantles are supplied with a 1" rebate as standard unless otherwise requested
- Information shown is correct at time of printing. Findley House reserve the right to adjust sizes or design without prior notice
- Faults or damages must be reported within 3 days of delivery.
- Findley House Ltd will not be responsible for any fault or defect noticed after installation.
- Due to the cutting and manufacturing process, Findley House will endeavour to meet all sizes stated, however, a tolerance of 10mm is considered acceptable.
- All Findley House products must be fitted by a qualified installer. It is the responsibility of the retailer to ensure that all items are installed correctly & safely.
- High Efficiency/High Output gas fires

Due to the varying heat outputs, temperatures and efficiencies of these types of fires, Findley House do not recommend the use of micromarble fireplaces with these appliances. It is the responsibility of the retailer to ensure that the material ordered is suitable for the intended appliance.

Solid Fuel

Due to the high temperatures reached with solid fuel, Findley House do not recommend the use of micromarble fire places. No material is impervious to the effects of high temperatures and no guarantees are offered when used with solid fuel. We do recommend that any items for solid fuel are slabbed, sectioned and reinforced with iron rods to provide extra strength and to allow for heat expansion.
