

Quaruba L, XL and XXL

The **Quaruba** is available in 3 different sizes; Large, XL and XXL.

It's a stylish wood stove with an elegant appearance designed for outdoor use and made of 3mm CorTen steel. This cube-shaped terrace stove has a unique modular construction and is therefore assembled as desired with 1 (glass fronted door) to 4 glass panels. Especially with this latest version you have a beautiful view of the fire from all sides! Since there are air spoilers above each window they remain nice clean during burning.

The door catch is located between the door panel and the right leg. The **Quaruba** is a closed fire and has a flue of 2 meters so you do not suffer from smoke, fire sparks and ash on the terrace.
