BUL-E27-LED-15

- Sika • a Scandinavian industrial range featuring white porcelain lamp holder and ceiling plate, plus antique brass details and grey fabric cable
- the wall light is plugged with an inline switch and cable tidy for electrician free installation

The image shows three pendant lights hanging from a ceiling against a dark green wall. The lights have conical shades in red, white, and yellow-green. Below them, a wooden table holds a vase with dried flowers, a dark mug, and a white mug. A chair is partially visible on the right.

CLASSIC PENDANTS & WALL LIGHTS

An attractive pendant system with a vintage feel in either antique chrome or natural brass. Featuring a standard SES size fitment.

Extremely versatile. Choose from a number of different glass and metal spun shades, or add any SES fabric shade to change the look of your fitting at any point.

This system features a braided fabric cable on the pendants and a metal pull chain switch on the wall lamps.

L A M P S

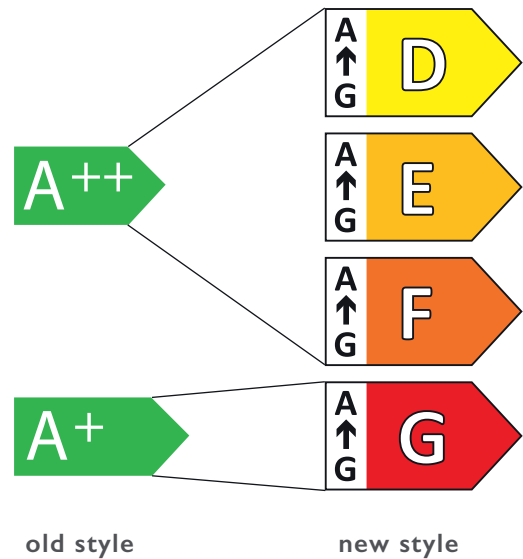

Revised Energy Rating - the same performance, a different grading scale

For clearer understanding of relative energy performance and to encourage increased performance and efficiency, a new scale has been introduced by the UK government. The existing ERP energy rating for lamps (light bulbs) is graded from the most energy efficient (A++) down to least (E). The new scale is graded from A down to G. Old A+ products now equate to the lowest G band, and the previous top grade A++ now equate to anything from D through to F.

Despite the apparent lower rating for our current lamps, their performance and efficiency is unchanged. Meanwhile, we are rising to the challenge of developing even more efficient lamps that will achieve the highest grades on the new, more demanding scale.

Please note that existing stock with the older label can be sold until **April 2023**. This means that both styles of label will be in the market until then.

Selected halogen lamps (bulbs) are still available until 1st September 2023

The following halogen lamps can be placed on the market until **1st September 2023** and can be legally sold after that date until stocks are exhausted:

- 12v halogen G4 lamps
- This includes our BULG410

- 240v halogen G9 lamps
- This includes our BULG920 and BULG933

- R7S linear halogen below 2700lm (approximately 140w equivalent)
- This includes our BULR7S80 and BULR7S120

Understanding Lamp Specifications

Lumens & Equivalent Wattage

The higher the lumens, the brighter the lamp. The equivalent wattage is a comparison, for reference only, to a traditional incandescent lamp.

Energy Rating

A grading of how efficient the lamp is at converting energy. The Revised Energy Rating scale is explained above.

Colour Temperature

Ranging from 2200k (kelvin) to 5000k, the colour temperature shows how cool (blue) or warm (red/orange) the light from a lamp is. Cooler colours are crisper; warmer colours are more relaxing. 2700k is most similar in colour tone to the traditional incandescent lamp.

Dimmable

Lamps with this symbol are dimmable; for wall and ceiling lights you must use an LED-compatible dimmer, such as a Varilight V-Pro.

LED

decorative pendant system

- decorative glass envelopes with user replaceable LED lamps
- sold as a complete kit
- simply attach directly to your fitting

Micro Filament LED Lamps

Our premium Micro Filament LED lamps feature a clear light guide column with a laser etched graphical filament. When lit the appearance is similar to original fine filament vintage lamps, giving a very warm decorative glow.

The outer glass envelope of clear borosilicate glass has a highly reflective coating that repels dust. Available in large and medium globes and the classic Edison shape.
