Welcome to the Designer collection Natural Portuguese Limestone

Thank you for showing an interest in our natural Portuguese limestone collection. As you browse through this catalogue you will find a very comprehensive range with 32 models being shown, many being offered in various sizes. There are styles to suit almost any room from traditional to contemporary, including our award winning designs. Our fireplaces are manufactured in our Portuguese workshops to the highest standard using only the best available materials with each stage of manufacture being monitored with our own strict quality control system.

Please note our attention to detail as each piece of stone is carefully selected from the very best available material. Having our own Portuguese manufacturing factory we are able to make alterations to most models shown in this brochure, including mix and match of materials, for example, black honed or polished granite can be used as an alternative to the limestone hearths which are shown to many models. Your chosen fireplace retailer should be able to advise and quote accordingly for any alterations you may desire.

Portuguese limestone is a beautiful natural material offering a fireplace that is truly unique each having its own natural variation in shading and markings. With its neutral colour it is an ideal choice for making decorating and room furnishings simple for now and for the future.

We supply only to fireplace retail specialists within the UK. This has the advantage of viewing some of our products usually within close proximity to where you live. Also the dealer can offer professional advice and surveys for your chosen product giving you total peace of mind, a very important part of any fireplace purchase.

We hope you enjoy this brochure and we are confident that you will agree that our fireplaces would be a true focal point to any room giving class, warmth and lasting beauty which can be admired for many years to come.

Important:

This brochure is for the sole purpose of displaying the limestone fireplaces, all other items shown in each picture including, stoves, electric fires, down lights, vermiculite panels etc, etc, are not included in any fireplace sale.

Down lights must not be used with any solid fuel or wood burning appliance.

If using any solid fuel or wood burning appliance, hearths and back panels must be sectioned to allow for thermal expansion, ask your chosen fireplace retailer for further advice.

Any description used for each fireplace is in the view of the editor only and must not be used as a factual statement.

PRODUCT GUIDE

All of our stone collection is manufactured from natural Portuguese limestone and as such, natural variation will occur. This will include shading, veining, fossils and crystal markings. This is the beauty of a natural stone product which sets it apart from any mass produced man made counterpart.

Every effort has been made to show correct colour representation, although no guarantees can be given due to the printing process. Customers are advised to view fireplaces and samples at their fireplace dealer.

All of our fireplace range is recommended for most compatible gas fires and electric fires, however some models with hearth and back panel sectioned and slabbed can be used for solid fuel. Ask your fireplace dealer for advice. Newman Fireplaces Ltd Policy is one of continuing improvement, we therefore reserve the right to alter material, design and specification without prior notice. It is strongly recommended that your chosen fireplace dealer surveys your chimney and any relevant items before purchasing any of our products.

It is advised that when the fireplace has fully dried after installation, that all surfaces are sealed with a suitable stone sealer. Ask your fireplace dealer for advice.

All Newman products should be inspected before installation, for quality and damage. No refunds can be given after this event.

All of our products must be installed by suitably qualified, competent and experienced installers complying with all relevant building regulations and any rules in force.
